- Wall mounted (out of the way)
- Height: 523mm Width: 207mm Depth: 155mm

Model Capacity

GD Pro: 5 litre

Short Form Specification

Model: GD Pro 5 litre is a programmable, biological dosing system housed in a wall mounted, stainless steel cabinet. Utilising the latest in grease digesting biotechnology, the GD Pro breaks down grease and fat biologically using naturally occurring micro-organisms. Classic model also available without stainless steel housing.
