

## DRAIN JETTING & MAINTENANCE

*Nationwide Capability with a Local Knowledge*

### KEEPING DRAINS CLEAR

Our national drainage team keep the drains flowing for some of the UK's biggest retailers. From drain jetting and vacuum tankering services to repair and investigations, Filta offers a 'one stop shop' for all your drainage needs

### COMMERCIAL DRAINAGE SOLUTIONS

Drainage issues can quickly become expensive, leading to drain odours, blockages and affecting trade. We provide a professional service to identify drainage condition and problem areas providing you with an easy to understand **written report which identifies each line individually listing:**

- any structural damage or defects
- any ingress of water/roots
- position of pipes and inspection chambers in relation to buildings
- proof of connectivity
- any build-up of grease/debris
- foreign objects

Through the use of the latest equipment our fully qualified engineers provide on-site:

- CCTV drainage surveys
- Drain-line jetting and descaling
- Drainage system mapping
- Drain repair and relining
- Drain odour investigation
- Complete drainage reports
